

Timothy Rohde
Chief Executive Officer
trohde@sgme.au

Tim is a mine closure industry expert and mine closure specialist (MAusIMM(CP)), certified professional soil scientist (CPSS), and a practicing engineer in Queensland (RPEQ).

He is a visionary, fostering a positive and vibrant work culture with outstanding communication skills and leadership. Tim transforms technical mine and quarry closure challenges into practical, cost-effective and innovative solutions to achieve overall project excellence and client objectives.

As a seasoned academic and thought leadership professional with extensive experience in coal and metalliferous mining. Tim has published over 25 credible technical papers on soil science, geochemistry and mine closure.
